

RICKSHAW

T H E A T R E

Rickshaw Theatre Projection Specs

- Two(2) Custom Screen 12' W x 8' H (Flown on either side of the stage)
- Two (2) Sanyo PLC-XF60A Projector (Currently aimed at our two flown custom screens)
- One (1) Custom cinema screen (mounted upstage behind our black curtains, curtains opened upon request)
- One (1) Panasonic PT-L6500UL Projector (Currently aimed at own cinema screen, centered upstage)
- One (1) Dynex DX - P7DVDCA DVD Player

All images must be resized to 520 by 520 pixels to be properly displayed on our flown side screens. videos and images MUST be brought in on a pc-formatted flash drive. If you wish to control the projections via your own device be sure that it has either VGA out, HDMI out or Mini display port out. if you choose to use your own device be aware that the videos and images must be resized to fit on our two flown side screens.
